Program Scope
The Spanish program offers a Bachelor of Arts, a minor, and a Master of Arts in Spanish. At the undergraduate level, the classes in linguistics, culture, and civilization are aimed at improving one’s understanding of the language and the people who speak it.

An ever increasing Spanish-speaking population has made Spanish the second most spoken language in the state of California and other states of the Union. The study and knowledge of this language, therefore, offers career alternatives in practically all fields of work and is an asset when seeking employment.
