Mission
The mission of the Museum Studies Program is to develop future museum professionals through highly structured coursework in a setting where museums’ educational efforts, collections, and interactions with the community are of central concern. Students are engaged in a 21st-century landscape, where responsiveness to the significant changes taking place in the museum profession are integrated into curriculum, activities and professional development.

Program Scope
The Museum Studies Program offers an undergraduate minor and a terminal Master of Arts (M.A.) degree. The Museum Studies Minor is rigorous, interdisciplinary, and pre-professional in nature. Coursework emphasizes acquiring knowledge in museum practice and theory to understand the public service role of museums and to apply this knowledge to support the work of museums in creating exhibits, educating the public, and caring for collections, through collaborative efforts.

The M.A. in Museum Studies is unique to SF State, and the only one of its kind in a public university in the state of California, either in the California State University or the University of California systems. The M.A. degree is designed to provide professional training in major areas of museum work—Museum Management & Fundraising, Curatorship, Registration/ Collections Management, Exhibition Design, Cultural Property Law and Protection, and Museum Education & Public Programming.

Facilities
The program supports a museum with permanent collections of cultural and ethnographic artifacts. The Global Museum, located in the Fine Arts building, is volunteer-operated and admission is free. Museum Studies students staff the museum and produce all exhibitions and related educational and public programming. Other facilities include a specialized lab, teaching space, and collections storage.

Career Outlook
Alumni of the Museum Studies Program have found employment at all career levels in museums of all sizes and types throughout the U.S. The Museum Studies Program partners with the School of Art, Special Collections at the Leonard Library, and other units on campus on projects and courses that prepare students for employment in all types of museums, cultural arts centers, arts commissions, historical sites and houses, science centers, environmental education centers, libraries with exhibition programs, exhibit design firms, auction houses, planetaria, aquaria, zoos, and botanical gardens.

Learning Outcomes

Minor Program
1. Acquire and combine general education skills with relevant knowledge and information on museum practice and theory to understand and discuss the public service role of museums in a multicultural world
2. Apply knowledge of museum practice and theory as a pre-professional to support the work of museums in creating exhibits, educating the public, caring for collections, and serving the public, through collaborative work
3. Use written, oral, and critical thinking skills to apply knowledge of museum practice and theory to evaluate the work of museums
4. Acquire knowledge of museum practice and theory to serve as an advocate for the role of museums as centers of education, community, and preservation

M.A. Program
1. Identify the core features of museum professionalism (ethical codes, professional societies, interpersonal skills, team work, career development resources).
2. Outline the broad history of museums, their core organizational features, and basic museum theory.
3. Acquire knowledge of key areas in museum research and practice, specifically in: collections care and registration; museum management and fundraising; and exhibition design.
4. Depending upon their emphasis, students will acquire knowledge of at least one of four areas in museum research and practice: curatorship; cultural property law and protection; museum education.
5. Depending upon their emphasis, students will acquire or have the option of acquiring knowledge in museum research and practice in the areas of audience development, digital asset management, global operations, or conservation.
6. Conduct independent research that leads to either a written thesis or an exhibit component.

Minor in Museum Studies
The Museum Studies Minor is rigorous, interdisciplinary, and pre-professional in nature. Coursework emphasizes acquiring knowledge in museum practice and theory to understand the public service role of museums and to apply this knowledge to support the work of museums in creating exhibits, educating the public, and caring for collections, through collaborative efforts. Students gain a useful set of pre-professional skills in museum practice, relevant information about museum theory and history, and learn about future careers in museums and informal educational settings. Written, oral and, critical thinking skills are developed to evaluate the work of museums.

The Museum Studies Minor will prepare students for the terminal M.A. degree in Museum Studies, or for additional on-the-job training for work in museums. Graduates will appreciate the role and power of museums in
Area Requirements (9 units)

Core Requirements (9 units)

Area Emphasis (12 units)
Select four electives relevant to the following areas. No more than 6 units of non-museum studies courses may count towards electives in the area emphasis. Courses must be chosen in consultation with a museum studies faculty advisor.

- Curatorship
- Exhibition Design
- Cultural Property Law and Protection
- Museum Management and Fundraising
- Museum Education and Public Programming
- Registration/Collections Management

Culminating Experience Requirement (3 units)

If the thesis or creative work project is not completed during the semester the student is enrolled in M S 894 or M S 898, the student is required to enroll in M S 897, a continuation course, in the third semester following their initial enrollment in M S 898 or M S 894. If the thesis or creative work project is not completed at the end of the third semester, students are required to enroll in the College of Extended Learning’s course, LCA 499 “Culminating Experience Continuous Enrollment,” and must maintain continuous enrollment in LCA 499 each fall and spring semester thereafter until graduation or until the department’s five-year deadline for completing the degree.

Admission to the M.A. Program

Students are admitted to the program for fall terms only. To be admitted to classified status, a student must meet all general University requirements. No more than 6 units of work taken in post-baccalaureate status are transferable to M.A. degree credit in the museum studies program.

To be eligible for consideration, applicants must:

- Have an undergraduate degree from an accredited college or university in one of the following or related fields: anthropology, archaeology, art history, classics, design, education, history, biological or physical sciences, or public/art administration. Additional museum experience beyond the minimum required is expected when a student has a degree in a field not listed.
- Have at least a minimum grade point average of 3.20 in the last 60 semester units of upper-division courses completed.
- Be able to demonstrate understanding of the work and profession of museum studies, gained through paid or volunteer experience (minimum of six months) in a museum or related setting. Experience can be completed prior to or concurrent with application to the program.
- Submit to the Museum Studies program two letters of recommendation from faculty or supervisors knowledgeable of the applicant’s academic or professional ability. At least one of these letters should be from a museum supervisor.
- Submit to the Museum Studies program a current résumé and written statement of purpose, outlining background, intentions, and goals as specified in the program’s admissions procedures. Each applicant is encouraged to specify as closely as possible the emphasis s/he wishes to pursue.
