MINOR IN GENERAL BIOLOGY

The Minor in Biology has been suspended for the 2017–2018 academic year because of impaction. No requests to declare the minor will be approved at this time. Students who have already declared a minor will be allowed to complete their course of study.

The minor requires a minimum of 23 units in biology, of which at least one-half must be upper division units.

All courses in the minor must be completed with letter grades (CR/NC is not acceptable). All course work used to satisfy the requirements of the minor must be completed with a minimum grade point average of 2.0.

General Biology Minor — 23 units

Lower Division Requirements (10 units)

Upper Division Requirements (13 units)

Ecology Course

Select one course including fieldwork (3–5 units) from the following:

- BIOL 482 Ecology
- BIOL 529GW Plant Ecology - GWAR
- BIOL 532 Restoration Ecology
- BIOL 534 Wetland Ecology
- BIOL 580 Limnology
- BIOL 582 Biological Oceanography
- BIOL 585 Marine Ecology & BIOL 586 Marine Ecology Laboratory

Genetics or Evolution Course

- BIOL 355 Genetics
- or BIOL 337 Evolution

Physiology Course

Select one of the following:

- BIOL 442 Microbial Physiology
- BIOL 525 Plant Physiology
- BIOL 612 Human Physiology
- BIOL 630 Animal Physiology

Additional Upper Division Electives

Select 2–4 units approved by an advisor.
