BACHELOR OF SCIENCE IN EARTH SCIENCES: OCEAN, WEATHER AND CLIMATE EMPHASIS - GEOL ASSOCIATE DEGREE FOR TRANSFER ROADMAP

This is a sample pathway for students who transfer to San Francisco State University in the current Bulletin year with an AS-T in Geology. Twenty-six units in the major (CHEM 115/CHEM 215/CHEM 216, ERTH 500, MATH 226, MATH 227, 5 elective units) and all lower-division GE requirements have been satisfied. Additional units in the major may have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

</table>

1. PHYS 111/PHYS 112 are prerequisites for PHYS 121/PHYS 122. PHYS 220/PHYS 222 are prerequisites for PHYS 240/PHYS 242.
Ocean, Weather & Climate Emphasis Requirements
Select three courses from the following:
ERTH 430 Fluid Dynamics in Earth Systems (3 units)
ERTH 434 Coastal Processes (3 units)
ERTH 465 Weather Analysis and Forecasting I (4 units)
ERTH 470 Physical Oceanography (4 units)
ERTH 535 Planetary Climate Change (4 units)

Take EERTH 697 if selecting Honors Thesis as Major Culminating Experience. Take University Elective if selecting EERTH 695 - Senior Project as Major Culminating Experience.

Ocean, Weather, and Climate Emphasis Elective (2 units)
Select additional Geology emphasis electives upon advisement, subject to the following constraints:
• Emphasis requirements above plus electives must total at least 34 units.
• Electives may be selected from among the following options:
  • Any EERTH course numbered 200 or higher
  • CHEM 680
  • Physics with calculus beyond courses used to meet the Physics requirements in the Science and Math Foundation portion of the degree (e.g., PHYS 230/PHYS 232, or for students who take PHYS 111/PHYS 112 and PHYS 121/PHYS 122, 2 of the 4 units for each of PHYS 220/PHYS 222 and PHYS 240/PHYS 242 can count toward the elective requirement)
  • Computer programming (e.g., CSC 309)
  • Any non-GE statistics or other data analysis (e.g., MATH 324)
  • Linear algebra and/or more advanced calculus (e.g., MATH 228, MATH 245)
  • GEOG 313, GEOG 314, GEOG 316, GEOG 317, GEOG 500GW, GEOG 602, GEOG 603, GEOG 606, GEOG 610, GEOG 611, GEOG 620, GEOG 621, GEOG 625, GEOG 629, GEOG 643, or GEOG 644
  • One non-GE course not listed above, with the approval of a Department of Earth & Climate Sciences advisor and the Department Chair.

When choosing electives, keep in mind that SF State requires all students to complete at least 40 units of upper-division coursework to graduate.

To Do at SF State:
Enough total units to reach 120 minimum for graduation; 30 units minimum at the upper-division level; to include the following:

University-Wide Requirements: 9-15 Units
• American Institutions (0-6 units): US History, US Government, California State and Local Government requirements if not taken before transfer.
• Upper-Division GE (9 units): Courses required for the major may double-count if approved for UD GE.
• Students transferring with the AS-T in Geology are not required to fulfill SF State Studies or Complementary Studies requirements.

Earth Sciences Major (Emphasis in Ocean, Weather, and Climate): 41-44 Units
CHEM 115, MATH 226, MATH 227, EERTH 500, and 10 units of Ocean, Weather, and Climate emphasis electives (5 units of CHEM 215/CHEM 216, 1 unit of 4 units of Historical Geology, and 4 units of Physical Geology in the Geology AS-T) met in transfer.
• Basic Science & Math Foundation (8 units in PHYS): If some or all PHYS completed before transfer, consult with a major advisor about appropriate course choices.
• Emphasis requirements above plus electives must total at least 34 units.
• Electives may be selected from among the following options:
  • Any EERTH course numbered 200 or higher
  • CHEM 680
  • Physics with calculus beyond courses used to meet the Physics requirements in the Science and Math Foundation portion of the degree (e.g., PHYS 230/PHYS 232, or for students who take PHYS 111/PHYS 112 and PHYS 121/PHYS 122, 2 of the 4 units for each of PHYS 220/PHYS 222 and PHYS 240/PHYS 242 can count toward the elective requirement)
  • Computer programming (e.g., CSC 309)
  • Any non-GE statistics or other data analysis (e.g., MATH 324)
  • Linear algebra and/or more advanced calculus (e.g., MATH 228, MATH 245)
  • GEOG 313, GEOG 314, GEOG 316, GEOG 317, GEOG 500GW, GEOG 602, GEOG 603, GEOG 606, GEOG 610, GEOG 611, GEOG 620, GEOG 621, GEOG 625, GEOG 629, GEOG 643, or GEOG 644
  • One non-GE course not listed above, with the approval of a Department of Earth & Climate Sciences advisor and the Department Chair.

When choosing electives, keep in mind that SF State requires all students to complete at least 40 units of upper-division coursework to graduate.

To Do at SF State:
Enough total units to reach 120 minimum for graduation; 30 units minimum at the upper-division level; to include the following:
