**BACHELOR OF SCIENCE IN EARTH SCIENCES**

The Bachelor of Science in Earth Sciences is designed for students intending to prepare for direct entry into a career as a professional in industry or government, or for graduate school in any of the Earth sciences, such as geology, oceanography, and meteorology. Courses in the BS degree’s Earth Sciences Core, supported by courses in the Basic Science and Math Foundation, give students a strong understanding of the structure and behavior of Earth’s systems (geosphere, hydrosphere, atmosphere, and biosphere) and the physical process through which they interact. The Earth Sciences Core courses teach not only interdisciplinary science concepts but also skills in quantitative problem solving, field work, and writing and oral communication, which are directly applicable to both graduate school and a career.

Students will develop disciplinary depth by selecting one of the three emphases: Geology, Hydrology, or Oceans, Weather & Climate.

**Earth Science (B.S.) — 69–70 units**

**Basic Science and Math Foundation** (17 units)

- **CHEM 115** General Chemistry I: Essential Concepts of Chemistry 5
- **MATH 226** Calculus I 4
- **PHYS 111** General Physics I 4
  & **PHYS 112** General Physics I Laboratory 1
  or **PHYS 220** General Physics with Calculus I 2
  & **PHYS 222** General Physics with Calculus I Laboratory 1
- **PHYS 121** General Physics II 4
  & **PHYS 122** General Physics II Laboratory 1
  or **PHYS 240** General Physics with Calculus III 2
  & **PHYS 242** General Physics with Calculus III Laboratory 2

**Earth Sciences Core** (14 units)

- **ERTH 205** Techniques in Earth Sciences 2
- **ERTH 400** Earth Systems I 3
- **ERTH 500** Earth Systems II 3
- **ERTH 505** Quantitative Methods in Earth Sciences 3
- **ERTH 600GW** Earth’s Climate History - GWAR 3

**Culminating Experience** (4–5 units)

- **ERTH 690** Earth Sciences Capstone Presentation 1
  and one of the following options:
  - **ERTH 695** Senior Project 3
  - **ERTH 697** Undergraduate Research 4
  & **ERTH 698** and Senior Thesis 4
  - or (for Geology emphasis and Hydrology emphasis only):
    Field Geology or equivalent (at another institution) 4

**Emphasis (34 units)**

*Students must select one of the following emphases*

**Geology Emphasis**

The Geology emphasis provides students with an in-depth understanding of the solid Earth and process that shape it and skills to conduct field investigations of geologic problems. Students who complete these emphasis requirements will be prepared for graduate school in geology or to enter the workforce directly as a professional geologist. The coursework prepares students to pass the Association of State Board Geology (ASBOG) exam to be a licensed professional geologist.

**Required Courses (22–23 units)**

- **ERTH 210** Physical Geology 4
- **ERTH 420** Mineralogy and Petrology I 4
- **ERTH 510** Structural Geology 4
- **ERTH 515** Sedimentology and Stratigraphy 4
- **ERTH 620** Field Methods in Geology 2
- **ERTH 522** Geochemistry 4–5
  or **CHEM 215 & CHEM 216** General Chemistry II: Quantitative Applications of Chemistry Concepts
  and General Chemistry II Laboratory: Quantitative Applications of Chemistry Concepts

**Electives (11–12 units)**

Select (upon advisement) additional Geology emphasis electives needed to reach 34 units.

**Hydrology Emphasis**

The Hydrology emphasis provides students with in-depth understanding of the behavior of water on and beneath Earth’s surface, how water shapes the solid earth, and environmental problems associated with water. Students who complete these emphasis requirements will be prepared for graduate school in hydrology or to enter the workforce directly as a professional hydrologist.

**Requirements (21–22 units)**

Select one of the following:

- **ERTH 210** Physical Geology 3–4
- **ERTH 230** Environmental Geology 3
- **ERTH 330** California Water 3
- **ERTH 430** Fluid Dynamics in Earth Systems 3
- **ERTH 425** Geomorphology 4
- **ERTH 442/GEOG 342** Surface Water Hydrology 4
- **ERTH 444** Hydrogeology 4
- **ERTH 544** Groundwater Contamination 3

**Electives (12–13 units)**

Select (upon advisement) additional Hydrology emphasis electives needed to reach 34 units. (May include courses from the list above not selected to meet emphasis requirements.)

**Ocean, Weather & Climate Emphasis** (34 units)

The Ocean, Weather & Climate emphasis provides students with an understanding of the structure and behavior of oceans, the atmosphere, and climate, and the physical processes that shape and change them. Students who complete these emphasis requirements will be prepared for graduate school work in Earth sciences disciplines such as oceanography, meteorology, or climate science, or to enter the workforce directly.

**Requirements**

- **ERTH 260** Physical Processes in the Atmosphere 4
  and five courses selected from the following:
  - **ERTH 335** Global Warming 4
Bachelor of Science in Earth Sciences

or ERTH 360 California Weather Events
or ERTH 365 Extreme Weather in a Warming World
ERTH 430 Fluid Dynamics in Earth Systems
ERTH 434 Coastal Processes
ERTH 465 Weather Analysis and Forecasting I
ERTH 470 Physical Oceanography
ERTH 535 Planetary Climate Change
MATH 227 Calculus II

Electives
Select (upon advisement) additional Ocean, Weather, and Climate emphasis electives needed to reach 34 units. (May include courses from the list above not selected to meet emphasis requirements.)

SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM) | LD or UD | 3 |

Environmental Sustainability (ES) | LD or UD | 3 |
Global Perspectives (GP) | LD or UD | 3 |
Social Justice (SJ) | LD or UD | 3 |

Note: LD = Lower Division; UD = Upper Division.

First-Time Student Roadmap (4 Year)
This Geology Emphasis roadmap opens in a new tab. (bulletin.sfsu.edu/colleges/science-engineering/earth-climate-science/bs-earth-sciences/geology-roadmap.html)

This Hydrology Emphasis roadmap opens in a new tab. (bulletin.sfsu.edu/colleges/science-engineering/earth-climate-science/bs-earth-sciences/hydrology-roadmap.html)

Transfer Student Roadmap (2 Year)
For students with an AS-T in Geology. This Geology Emphasis roadmap opens in a new tab. (bulletin.sfsu.edu/colleges/science-engineering/earth-climate-science/bs-earth-sciences/adt-geology-roadmap.html)

For students with an AS-T in Geology. This Hydrology Emphasis roadmap opens in a new tab. (bulletin.sfsu.edu/colleges/science-engineering/earth-climate-science/bs-earth-sciences/adt-hydrology-roadmap.html)

For students with an AS-T in Geology. This Ocean, Weather & Climate roadmap opens in a new tab. (bulletin.sfsu.edu/colleges/science-engineering/earth-climate-science/bs-earth-sciences/adt-ocean-roadmap.html)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Geology

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.
Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken.

Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering, and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.
