BACHELOR OF SCIENCE IN PHYSICS: CONCENTRATION IN PHYSICS FOR TEACHING

Undergraduate Programs in Physics and Astronomy

High school preparation for these programs should include two years of algebra, one year of geometry, one-half year of trigonometry, one year of chemistry, and one year of physics. Some experience in computer programming is valuable. All students, especially those who have not completed a substantial chemistry course in high school, are strongly urged to take CHEM 115 and CHEM 215–CHEM 216 in their first year of college.

It is suggested that students in these programs consult with their advisor before selecting courses to meet General Education requirements. Unnecessary repetition of elementary topics might be avoided by careful selection of courses. A plan of study prepared in consultation with a departmental advisor is a prerequisite to entry into upper division study.

Students who are considering teaching physics at the secondary school level should see a credential advisor in the department before planning the major since specific courses. A competency assessment is required for admission to the credential program.

- A maximum of 6 units taken CR/NC may be counted toward any undergraduate degree.
- All prerequisites for upper division courses must be completed with a grade of C– or better. See course descriptions for prerequisite requirements.

Physics (B.S.): Concentration in Physics for Teaching — 64 units

Lower/Upper Division Prerequisites (27 units)

MATH 226  Calculus I  4
MATH 227  Calculus II  4
MATH 228  Calculus III  4
MATH 245  Elementary Differential Equations and Linear Algebra  3
or MATH 376  Ordinary Differential Equations I  4
PHYS 220  General Physics with Calculus I and General Physics with Calculus I Laboratory  4
& PHYS 222  General Physics with Calculus II and General Physics with Calculus II Laboratory  4
PHYS 230  General Physics with Calculus II  4
& PHYS 232  General Physics with Calculus III and General Physics with Calculus III Laboratory  4
PHYS 240  General Physics with Calculus III  4
& PHYS 242  General Physics with Calculus III Laboratory  4

Upper Division Requirements (25 units)

PHYS 320  Modern Physics I  3
PHYS 321  Modern Physics Laboratory  2
PHYS 330  Analytical Mechanics I  3
PHYS 360  Electricity and Magnetism I  3
PHYS 370  Thermodynamics and Statistical Mechanics  3
PHYS 385  Introduction to Theoretical Physics I  3
PHYS 490  Physics Project Laboratory & PHYS 491GW  3
PHYS 695  Culminating Experience in Physics  1
SCI 652  SFSU Science Partners K-12 Schools  4

1  PHYS 490 and PHYS 491GW satisfy the GWAR requirement when taken in sequence in Fall 2010 or later.

Electives (12 units)

Selected in consultation with a departmental advisor to prepare to teach a second subject in addition to physics or general science at a 9th-grade level. Electives may be lower division or upper division courses.

SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM)  
LD or UD  3
Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit [http://www.assist.org](http://www.assist.org). Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses
that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.
