GRADUATE STUDENT REGISTRATION

Graduate Student Registration Policies

Graduate Studies does not oversee the registration process, adding or withdrawing from classes, or grade changes. Contact the department graduate coordinator and/or the registrar at One Stop. See Bulletin section General Policies and Procedures: Registration Policies for information on registration for classes and withdrawal policies. Work with a graduate advisor or continuing student specialist for information on leaves of absence. The Leave of Absence request form is found on the Graduate Studies website (http://grad.sfsu.edu/sites/sites7.sfsu.edu.grad/files/assets/forms/leave-of-absence-request.pdf).

Full-Time Unit Load for Graduate Students

Fall and Spring Semesters

Full-time study for graduate students during the fall and spring semesters is defined as follows:

- For payment of fees, 6.1 units and above
- For those receiving financial aid, 8 units and above
- For international students, 8 units and above
- Typical full-time load, 9–12 units per semester

The University reserves the right to limit the number of units for which a student can register in the initial registration period. The maximum unit load with permission of designated faculty advisor is 16 units. Students seeking to take more than 16 units in a semester must have a minimum GPA of 3.25 overall or in any semester. To petition to take more than 16 units, submit the Request to Exceed Regular Academic Unit Load form (http://grad.sfsu.edu/sites/sites7.sfsu.edu.grad/files/assets/forms/exceed-units.pdf) to the major advisor, college graduate coordinator, and dean of Graduate Studies. After appropriate signatures have been obtained, the form is forwarded to the Registrar’s Office.

In general, a post-baccalaureate student will not be given permission to exceed 18 units in any semester with the exception of cohorted professional programs. For further information, review the Academic Load (bulletin.sfsu.edu/policies-procedures/#ALoad) section of this Bulletin.

Summer Semester

Graduate students may enroll in a maximum of six units in a five-week summer session, nine units in the eight or ten-week summer session, and 11 units in any combination of summer sessions (R1, R2, R3, and R4). Some students in 12 month professional programs are excluded from this policy.

Graduate Course Enrollment Priorities

Academic Departments have the authority to assign enrollment priorities to their students wishing to enroll in graduate-level courses. A priority system is used to ensure that majors in the program can access courses needed to complete the degree program in a timely manner. From a pool of individuals, the department would normally be expected to grant admission to the class in the following rank order:

- graduate majors of the department/program;
- classified graduate students from other departments including Interdisciplinary Majors; and
- advanced undergraduate students.

It is the student and faculty member’s responsibility to determine that prerequisites for graduate courses have been met.

Graduate Students Enrolled in Upper Division Courses

Graduate students enrolled in upper division courses are expected to complete additional coursework and to meet academic standards above the requirements delineated for undergraduate students. The faculty member teaching the course is responsible for assigning the additional coursework and/or academic standards required of graduate students. The additional requirements for graduate students should be stated on the syllabus or the graduate student should be informed of the requirements in writing within the first two weeks of the semester.

Graduate Paired Courses

A paired course is a graduate course paired with an undergraduate course covering similar content. The paired course is taught by the same instructor, on the same days and times, and in the same class environment. Graduate students must enroll in the graduate-level of the paired course, numbered (700–889) and complete all graduate level expectations as described in the course syllabus. A paired course taken at the undergraduate level may not be repeated for credit at the graduate level.

Independent Study Courses

Most graduate programs have an 899 Independent Study course. Typically, this is an intensive study of an identified problem or subject which is carefully planned in advance, developed, and completed under the direction of a tenured/tenure-track faculty member (see Graduate Faculty (http://bulletin.sfsu.edu/graduate-education/admission)). The 899 Independent Study may not be used to improve the GPA. Graduate students may not enroll in an Independent Study 699 (undergraduate) course.

While each department may establish its own specific criteria for enrollment in an 899, the following are basic requirements or guidelines:

- The independent study is usually of a research or creative nature.
- The student must have a cumulative post-baccalaureate grade point average of 3.25 or higher.
- An independent study course is available only to students who have done previous work in the department and is restricted to conditionally classified or classified graduate students in the program. In unusual cases, a student in a complementary major may enroll in an 899 in another department provided there is a clear association with the student’s degree plan.
- Prior to enrollment in the course, the student, with support of the faculty member, must develop a written plan of study detailing the focus of the independent study, the assignments required and the manner of assessment of the work completed in the form of a project, examination or performance.
- The course may not be used to replace required program-specified Advancement to Candidacy (ATC) core courses or to satisfy additional coursework requirements required as a consequence of a seven-year time extension to complete requirements for a master’s degree.
A petition for an independent study form may be obtained from the major
department office and must be reviewed by the Division of Graduate
Studies. Independent study contracts must be filed in the department
office and are subject to audit by the CSU.

Continuous Enrollment Requirements
Prior to Enrolling in the Culminating Experience
Students who leave the University for two or more consecutive semesters
(not including summer session), or who have attended another college
or university during their absence, must reapply for admission to the
University through CAL STATE APPLY (https://www2.calstate.edu/
apply), pay the application fee, submit any new transcripts other than
the SF State transcripts, and reapply to the program in which they were
enrolled. Any student who does not maintain continuous enrollment
status in the University must meet curriculum requirements in effect at
the time of reentering the graduate program or the semester in which a
new Advancement to Candidacy (ATC) form is filed. Readmission to the
degree program is not guaranteed.

Following Enrollment in the Culminating Experience
Students who have registered for the Culminating Experience Course
through the regular university will not be required to enroll in the
University during the following semester if they have not completed
their Culminating Experience. After this one semester grace period ends,
all graduate students are required to maintain continuous enrollment
at SF State through the College of Extended Learning (CEL) or regular
University until the degree is earned. Students in the CEL course will have
access to library and discipline-specific laboratories. The department
“time to degree” is in force. Students in the Culminating Experience
continuous enrollment program should maintain frequent contact each
semester with their faculty member and meet all timelines set forth in the
culminating experience proposal document.

College of Extended Learning
Special Sessions
A limited number of University degree, credential, and certificate
programs are offered in Special Sessions through the College of Extended
Learning (CEL). Applicants to a Special Sessions graduate program must
complete a two-part process:

1. Apply for admission to SF State Graduate Studies online through CAL
   STATE APPLY (https://www2.calstate.edu/apply) and
2. Apply to the program offered by an academic department via the
   College of Extended Learning.

Once admitted to the University and the program, students register and
enroll through CEL in the courses for that specific program. Special
Sessions students have matriculated status and must meet all University
academic performance standards, graduation requirements, and observe
all university conduct expectations. Graduation eligibility is determined
by the Division of Graduate Studies.

The list of current and anticipated Special Sessions programs, grouped
by category (degree, credential, and certificate), appears in the College of
Extended Learning section (http://bulletin.sfsu.edu/colleges/extended-
learning) of this Bulletin. The following website provides additional
information: cel.sfsu.edu (http://www.cel.sfsu.edu).

Open University
Students may apply no more than six units taken through Open
University enrollment toward a 30 unit master’s degree, or proportionally
more for a higher unit degree (no more than 12 units), provided they are
admitted to the program and the units are accepted by the graduate
coordinator of the degree program at the time of admission [review
section on Advancement to Candidacy (ATC) (http://bulletin.sfsu.edu/
graduate-education/academic-policies-procedures)] for complete
information on how many transfer or Extended Learning units can be
used on the ATC. Students taking courses through Open University
related to a specific degree program should seek advisement from the
program and apply for admission before completion of Open University
courses. Completing Open University courses with a GPA of 3.0 or greater
does not guarantee admission to a graduate degree program. Students
taking courses through Open University to improve their GPA may not
take courses required for the graduate degree from which they were
disqualified.

Graduate Student Financial Aid
Student Fees
See Bulletin section entitled Schedule of Fees (http://bulletin.sfsu.edu/
fees-financial-aid/fees-expenses).

Depending on need, graduate students admitted in conditionally
classified, classified or credential status are eligible for loans, grants,
scholarships, and federal work-study. Financial assistance specifically
for graduate students is limited. Students should carefully review all
loan contracts to determine future debt/load and ability to repay the
loans within the prescribed time. A limited number of Graduate Teaching
Associate or Graduate Assistant positions are available. Contact the
department directly for information.

Graduate Equity Fellowship
The purpose of San Francisco State University’s Graduate Equity
Fellowship program (http://grad.sfsu.edu/content/finance/graduate-
equity-fellowship) is to increase diversity by encouraging outstanding
students from educationally or economically disadvantaged backgrounds
to complete master’s and doctoral degrees at SF State. Second
baccalaureate, credential-only and certificate students are not eligible.

Provost Scholar Award
The Provost Scholar Award provides selected newly admitted domestic,
non-resident students with an out-of-state tuition waiver for one
year. Contact the department to which you are admitted to advise
them that you are a domestic non-resident applicant and wish to be
considered for the Provost Scholar Award. Awards are granted based on
academic excellence, standardized test scores (if required for department
admission), department-required essay or statement of purpose, and
letters of recommendation. Awardees will be notified of the award by the
Division of Graduate Studies.

Financial Aid
Financial Aid may be available to you. Applying begins with the Free
Application for Federal Student Aid (FAFSA). Please visit SF State’s Office
of Student Financial Aid (http://www.sfsu.edu/~fnaid) for additional
information.

State University Grant (SUGs)
State University Grant (SUGs) is a grant for classified, conditionally
classified, and credential, California resident graduate students, paying
resident tuition and fees. There is a limited amount of funding each year and all awards are conditional based on the availability of funds from the State. The SUG is designated specifically to pay a portion of students’ basic tuition and fees. Any other fee paying financial aid and/or resource you receive will affect the student’s eligibility for SUG. Learn more on our State University Grant page. (http://grad.sfsu.edu/content/state-university-grant)

**TEACH Grant**

The TEACH Grant Program provides grants of up to $4,000 a year to students who are completing or plan to complete course work needed to begin a career in teaching.

- CSU TEACH Grant Home Page (http://www.calstate.edu/teachered/scholarships/teach-grant.shtml)

**Alumni Scholarship**

The Alumni Scholarship Association will grant scholarships of $1,000 each to students who will have SF State graduate status each fall. Applicants are required to have a minimum cumulative grade point average of 3.25, and must be enrolled full-time (8 units or more) for the fall semester. Scholarships are merit and need based. For more information, visit sfsu.edu/~alumni/scholarship.htm (http://www.sfsu.edu/~alumni/scholarship.htm)

**Nationally Competitive Graduate Fellowships**

The Fellowships Office assists graduate students applying for nationally competitive fellowships, as well as system-wide CSU scholarships and awards. These awards may include funding for graduate studies, as well as research experience and prestigious internships in the U.S. and abroad. Competitive applicants are passionate, engaged students with strong records of academic achievement, leadership, and public service activities. To explore the possibility of pursuing a nationally competitive fellowship, search the Graduate Fellowships website for fellowships in your field or area of professional interest (sfusu.edu/~fellows1/grad_fellowships(http://www.sfsu.edu/~fellows1/grad_fellowships)), then make an appointment with Dr. Joy Viveros jviveros@sfsu.edu.

Students who intend to go on for a Ph.D. should also consult the SF State California Pre-Doctoral Program website (Dr. Viveros is the SF State Coordinator of this program): sfusu.edu/~fellows1/predoc (http://www.sfsu.edu/~fellows1/predoc).

**Graduate Assistantships**

Graduate assistantships are designed to provide professional experience and financial assistance to qualified graduate students. Positions are posted each semester by departments offering these opportunities. These positions may involve supporting instructors in courses and laboratories, supporting office functions and duties, preparing course or laboratory materials, and tutoring or assisting students. To be eligible, a student must meet the following minimum requirements:

- Be a conditionally classified or classified graduate student in good standing who is actively pursuing a graduate degree and has an overall and semester GPA of 3.0 or above while in post-baccalaureate status.
- Be registered for a minimum of three units at SF State directly applicable to the graduate degree or have registered for a Culminating Experience course in the previous semester and received an “RP” grade. Students enrolled in the CEL 499 continuous graduate enrollment program are eligible to work as a GA for one semester. International students in the grace semester following enrollment in a Culminating Experience course must complete the Request for Approval to Take a Reduced Course Load Due to Thesis/Project/Recital/Oral Defense/Exam form (https://oip.sfsu.edu/sites/default/files/f1/forms/RCLThesis.pdf) two weeks prior to the beginning of this semester and submit it to the Office of International Programs.
  - Not be assigned duties in a course in which academic credit is being earned.
  - Not be enrolled with an academic unit load which would be incompatible with the demands of the assistantship.
  - Not be otherwise currently employed at SF State in any lecturer or staff category.
  - The appointment combined with any other student employment at SF State may not exceed 20 hours per week.
  - Not be appointed for more than a total of four semesters for students in a 30 unit program, or proportionately more for programs that exceed 30 units, up to a maximum of six semesters.

**Graduate Teaching Associate Positions**

The University, through its major departments, provides graduate students with part-time employment as teaching associates in courses related to their area of advanced study. The appointments usually involve teaching classroom and/or laboratory courses, assessing student performance, and tutoring students. The students assist faculty with field experiences, supervision, and/or research projects. To be eligible, a student must as a minimum:

- Be a degree-seeking graduate student in the academic department in which she/he is employed to perform instruction.
- Have thorough knowledge and understanding of the subject matter of the discipline in which the assignment is made.
- Possess the ability to communicate and relate well to others within the academic environment and the ability to instruct and constructively evaluate student performance.
- Be registered at SF State during the term of appointment in a minimum of three units of course work directly applicable to the graduate degree or have registered for a Culminating Experience course in the previous semester. Students enrolled in the CEL 499 continuous graduate enrollment program are eligible for one semester.
  - Not be appointed for more than four semesters.
  - Not teaching graduate level courses.

**California Pre-Doctoral Program**

The California Pre-Doctoral Program is designed to diversify the pool of University faculty by supporting the doctoral aspirations of students who are upper division undergraduates or graduate students on a California State University campus, economically or educationally disadvantaged, with focused research interests, and an interest in a university faculty career. See sfusu.edu/~fellows1/predoc (http://www.sfsu.edu/~fellows1/predoc)
Chancellor’s Doctoral Incentive Program

This program provides student loans to a limited number of individuals pursuing full-time doctoral degrees at accredited universities throughout the United States. After participants receive their doctoral degrees and obtain a qualifying instructional position in the CSU, a portion of their loan from this program will be forgiven every year. calstate.edu/hr/cdip (http://www.calstate.edu/hr/cdip)
