THE GEOGRAPHY & ENVIRONMENT MAP LIBRARY

The Geography Map Library offers the University and the San Francisco community a unique and varied collection of maps. The Map Library aids faculty and students in the selection of maps that best fit their needs in the classroom and research.

The collection maintained by the Map Library includes the University's Wall Map Collection, a regional flat map collection with world coverage, the AMS Series for Southeast Asia and a diverse collection of maps of California and the San Francisco Bay Region.

The Map Library also functions as an Official USGS Map Depository for the Western States Region. The Map Library houses a collection of nearly three thousand of the latest USGS Topographic Quadrangles for California, Oregon, Washington, Idaho, Nevada, Utah, Arizona, New Mexico, Hawaii, and Alaska. These collections are open to the public during the regular business hours of the Map Library, located in HSS 289.
