

GRADUATE CERTIFICATE IN BUSINESS PRINCIPLES

The purpose of this certificate is to introduce students to business foundations in preparation for applying to the MBA program. Many students do not feel prepared to enter an MBA program, including students who have been out of school for a number of years, students who are unsure whether they want to do an MBA program, and students who know very little about business. These students will benefit from this program, which introduces them to business foundations and prepares them for MBA work. This program will provide an opportunity to explore the business field while meeting basic entry requirements for the MBA.
