Program Scope
Latina/Latino Studies is a unique liberal arts B.A. degree program with an emphasis on equity, social justice, and community empowerment. The program offers an opportunity to study within a multidisciplinary framework of knowledge to develop critical thinking skills, analytical writing skills, and an area of expertise centered on Latinas/Latinos/Latinx in California and the United States. The program is designed to develop the knowledge, skills, and consciousness that empower students to function as effective leaders. The major prepares students for graduate and professional schools, for a wide range of public and private sector employment, and a lifetime of community commitment and involvement.

The Latina/Latino Studies curriculum is critical, analytical, holistic, and cutting-edge. Students choose an integrated series of required and elective courses, as well as General Education classes, focused on Latinas/Latinos/Latinx in the United States. Theoretical frameworks address race, class, sexuality, and gender inequities historically and in the present time in an analysis of multiple marginalities, community resistance, and empowerment.

The Latina/Latino Studies curriculum favors a pan-ethnic and comparative approach grounded in the U.S. but sometimes following a trajectory to Latin American countries of origin and the indigenous cultures and histories connected to Latina/Latino diasporic communities. The institutional experiences, social and national identities, cultural expressions, and resistance movements of Chicanas/o/a, Mexican, Caribbean, Central American, and South American communities in the U.S. are centrally addressed. The program focuses on gender, transnational identities, global economies, social movements, and literatures of resistance.

The Latina/Latino Studies curriculum is grounded in our local communities. Our program is committed to community service, civic engagement, social justice, and equity. We recognize the importance of critical, socially responsible scholarship and link our classrooms to local communities and their empowerment through our own Community Service Learning Program.

Community Service Learning Internships and International Study Tour
Supervised local community service learning (CSL) internships offer unique learning opportunities for students that enrich and expand their academic experience. Students are required to complete at least thirty-five hours of service as part of the major requirements. Local community service learning internships are available every semester. Students choose internships from a wide variety of community-based organizations, government agencies, research and policy organizations, and schools.

The internships are designed to enrich the academic experience and to prepare students for future careers as well as to establish empowering mutually beneficial contacts within the Latina/Latino/Latinx communities of the greater Bay Area. It is a goal of the CSL program to instill in our students a life-long commitment to community service and civic engagement. Students may enroll in a 3 unit online course, LTNS 694, to complete additional assignments related to their community service learning internship.

Clínica Martin Baró
Clínica Martin Baró is a community clinic providing health and medical services in San Francisco’s Mission District. The Clínica was established by faculty, students, and licensed medical personnel from Latina/Latino Studies at San Francisco State University and from the Medical School at the University of California, San Francisco. Clínica Martín Baró offers service-learning internships to students considering careers in the health and medical fields. Students must first pass or concurrently enroll in LTNS 210.

The Mexico Study Tour
The Mexico Study Tour travels in late May and early June, leaving the Monday following graduation. The intensive 12-day trip to Mexico City and Morelos is faculty-supervised. Students meet with activists from community-based organizations and schools to learn about grassroots political and social change. Students planning to travel to Mexico must first complete LTNS 670, covering Mexican history and politics and Mexico’s unique relationship to the United States. This course is offered every spring semester.

Combined BA/MA Program (SF State Scholars)
The San Francisco State Scholars program is designed for students who know early in their undergraduate career that they want to get a Master of Arts degree. Students apply for this program during their sophomore or junior year so they can begin an accelerated pathway to a graduate degree. Students in the SF State Scholars program pursue a bachelor's degree in Latina/Latino Studies and master's degree in Ethnic Studies simultaneously. This program allows students to earn graduate credit while in their junior and/or senior year, reducing the number of semesters required for completion of a master's degree. Through this program, students can pay undergraduate fees while taking courses for their MA degree. For more information, visit: https://grad.sfsu.edu/content/scholars-41-program
