# B.S. AND M.S. IN CHEMISTRY
## SF SCHOLARS ROADMAP

The San Francisco State Scholars program provides undergraduate students with an accelerated pathway to a graduate degree. Students in this program pursue a bachelor’s and master’s degree simultaneously. This program allows students to earn graduate credit while in their junior and/or senior year, reducing the number of semesters required for completion of a master’s degree.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

1. **ENG 114** can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.  
2. To determine the best B4 course option, students should complete the online advising activity at mathadvising.sfsu.edu. Questions? Contact Gator Smart Start.  
3. To avoid taking additional units, it is recommended that you meet the SF State Studies (AERM, GP, ES, SJ) requirements within your GE or major.  
4. Area B1 (Physical Science) is satisfied upon completion of CHEM 233.  
5. Area B3 (Laboratory Science) is satisfied upon completion of CHEM 234.  
6. CHEM 338 may be substituted for CHEM 336.  
7. Students may substitute CHEM 343 for CHEM 426 or CHEM 451 upon prior approval of advisor. If CHEM 343 is used as a substitute, it can not also be used as an elective.
