---

1. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP, you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

2. To determine the best B4 course option, students should complete the online advising activity at mathadvising.sfsu.edu (https://mathadvising.sfsu.edu/). Questions? Contact Gator Smart Start. (https://gatorsmartstart.sfsu.edu/)

3. QR Category III students with a grade of B or higher in high school pre-calculus in the past year may be able to enroll in MATH 226. Please see a department advisor.

4. To avoid taking additional units, it is recommended that you meet the SF State Studies (AERM, GP, ES, SJ) requirements within your GE or major.

5. GE Area A: Critical Thinking (A3) is satisfied upon completion of ENGR 205 and ENGR 201 or ENGR 213.

6. Lower-Division Modular Electives (3 units)
   - ENGR 271 Introduction to MATLAB (1 units)
   - ENGR 272 Engineering Project Management (1 units)
   - ENGR 291 Introduction to Creo Parametric (1 units)
   - ENGR 292 Introduction to Solid Works - Level I (1 units)
   - ENGR 294 Introduction to Microcontrollers (1 units)
   - ENGR 295 Design Methodology (1 units)

7. Upper-Division General Education, Physical and Life Sciences (UD-B) is satisfied upon completion of ENGR 300 and one of ENGR 301 or ENGR 302.

8. To avoid taking additional units, it is recommended that you meet U.S. and California Government (USG/CSLG) within Upper-Division GE.

9. Students must complete 18 units of upper-division Engineering units before registering for ENGR 696.
Upper-Division Major Electives (9 units)

Choice of upper-division electives must present a clearly identifiable educational objective and ensure that the program requirements in engineering science and design are met by all students. Distribution of credit units among engineering science and design is given in the Advising Guide. A study plan of intended upper-division electives must be approved by the student's advisor and the program coordinator prior to the seventh semester of the engineering program.

A total of 9 units from the following list of courses is required, subject to the minimum number of units specified for each group. Courses selected for the controls (emphasis) elective may not be double-counted as upper-division electives.
