

MASTER OF ARTS IN GEOGRAPHY, RESOURCE MANAGEMENT, AND ENVIRONMENTAL PLANNING

Graduate Coordinator and Program Advisors can be found on the [Graduate Advisors page \(https://environment.sfsu.edu/graduate-coordinator-advisors\)](https://environment.sfsu.edu/graduate-coordinator-advisors) on the School of the Environment website.

The Master of Arts in Geography, Resource Management, and Environmental Planning prepares students for professional careers in environmental related management, natural resources, environmental science, planning and policy, education and advocacy, as well as for Ph.D. programs in Geography & related disciplines. It also provides an opportunity for professionals to enhance their careers by advancing their skills and areas of expertise.

Admission to the Program

For admission to the graduate program, a student must meet the general University requirements as stated in the Bulletin. For unconditional admission to the MA program in Geography, [Resource Management, and Environmental Planning](#), a student must have completed an undergraduate major in [Geography, Environmental Science, Environmental Studies, or related field](#) with a GPA of 3.25 in the major. An applicant with a GPA of 3.25 or better in a major other than [Geography, Environmental Science, Environmental Studies, or related field](#) may qualify for admission as a conditionally classified graduate student. The conditional status is removed upon completion of core [coursework](#) in physical [or human geography](#) and introductory statistics, [in consultation with](#) and [advisor](#), with a grade of B or better in each course. Units earned for remedial or prerequisite coursework are not applied toward the graduate degree.

In addition to the general application and grade transcripts which are sent to the graduate admissions office, the department requires a detailed Statement of Purpose, and two letters of recommendation. Check the department website for details on how to [apply](#); materials must be submitted in one packet. Personal interviews with the graduate [advisor](#) and appropriate department faculty are recommended.

Written English Proficiency Requirements

The University has a requirement for written English proficiency that is to be assessed at two different levels.

Level One

Statement of purpose or other writing samples.

Level Two

Satisfactory completion of GEOG 895 or GEOG 898 .

Advancement to Candidacy

In addition to fulfilling all University requirements, students must complete the required curriculum outlined below. All graduate seminars and all courses used on the Advancement to Candidacy (ATC) with the exception of GEOG 895 and GEOG 898 must be taken on a letter grade basis and have earned a B- or better. Not more than 3 units of Special Study (GEOG 899) and 1 unit of Special Study (GEOG 699) may be included on the ATC. Internship (GEOG 688) units do not appear

on the ATC. Each student must consult with the appropriate graduate advisor regularly and design an individual program leading towards the culminating experience requirement (thesis or research paper). For advancement to candidacy, the student must select a culminating experience committee comprised of two or three members, at least two of whom must be from the [School of the Environment](#), and present a research proposal to the [school](#) faculty. Note that culminating experience committee members may have specific requirements for methodological background courses (e.g. the choice of GEOG 701 , GEOG 702, GEOG 704, or GEOG 705) so this should be considered when planning your course schedules.

Upper-division courses offered by the [school](#) may be included with the approval of the graduate [coordinator](#). Depending on a student's background and/or objective, additional courses in geography or related fields may be required on advisement.

Program Learning Outcomes

1. [Select, synthesize and critically evaluate appropriate research literature to support project goals.](#)
2. Design and complete [a significant independent](#) research project, demonstrating mastery in qualitative [and/or](#) quantitative analysis of a research question.
3. Communicate effectively with peers and professionals within their field, exhibiting strong analytical writing, visual, and oral presentation skills.

Geography, Resource Management, & Environmental Planning (M.A.) – 30 units minimum

Core Requirements (12 units)

Code	Title	Units
ENV 801	Scope and Method in Environmental Research ¹	3
GEOG 751	Environmental Management	3
GEOG 810	Seminar in Physical Geography	3
GEOG 820	Human and Social Geography	3

¹ To be taken by the student during the first year after admission to classified graduate status.

Graduate-level Research Methods & Techniques (3-4 units)

Select one on advisement:

Code	Title	Units
GEOG 701	Field Methods in Human Geography	3
GEOG 702	Field Methods in Environmental Science & Physical Geography	4
GEOG 704	Environmental Data Science	3
GEOG 705	Statistics for Environmental Analysis	3
GEOG 711	Remote Sensing of the Environment II	4
GEOG 720	Geographical Information Systems	4
GEOG 721	Geographic Information Systems for Environmental Analysis	4

Upper-Division Electives in Resource Management & Environmental Planning (6-8 units)

Select two on advisement:

Code	Title	Units
ENVS 470	Climate Politics and Policy	3
ENVS 480	Climate Change Adaptation and Justice	3
GEOG 402	Human Response to Natural Hazards	3
GEOG 427	Agriculture and Food Supply	4
GEOG/USP 433	Urban Transportation	4
or GEOG 435	Geography of Global Transportation	
GEOG/ERTH 642	Watershed Assessment and Restoration	4
GEOG 644	Water Quality	3
GEOG 647	Geography of Water Resources	4
GEOG/USP 652	Environmental Impact Analysis	4
GEOG/ENVS 657	Natural Resource Management: Biotic Resources	4
GEOG/USP 658	Land-Use Planning	4
GEOG 666	Geography of Garbage: Recycling and Waste Reduction	3

for questions and comments. Proposal presentations are scheduled as needed.

Graduate Electives (3-6 units)

Select on advisement as needed to reach 30 units:

Code	Title	Units
ENV 789	Graduate Internship	3
ENV 815	Seminar in GIScience	3
GEOG/I R 735	Seminar in Global Environmental Policy	3
GEOG 785	College Teaching of Geography	1-3
GEOG 810	Seminar in Physical Geography ²	3
GEOG 820	Human and Social Geography ²	3
GEOG 896	Directed Reading in Geography	3
GEOG 899	Independent Study	1-3

or other courses with approval of the Graduate Coordinator

² If GEOG 810 and GEOG 820 seminars are used to fulfill this requirement, they must be taken with different topics than were used to satisfy the core.

Culminating Experience (3 units)

Select one:

Code	Title	Units
GEOG 895	Research Project	3
GEOG 898	Master's Thesis (and Oral Defense of Thesis)	3

Research Proposal

The school requires all M.A. students to present a proposal of their research for the culminating experience to faculty and peers within a semester of filing the Proposal for Culminating Experience. The object is to provide students with useful feedback in the critical developmental stage of the research experience. Students present a twenty-minute synopsis of their research ideas to faculty and fellow graduate students focusing particularly on linking the research to a broader theoretical framework and presenting a methodology design to achieve the specifically stated objectives. This is followed by ten minutes (maximum)
